

Take That First

Important Step

FREE Head and Neck Cancer Screening

You're at risk if you:

- ✓ Use alcohol or tobacco
- ✓ Have persistent neck mass or pain in mouth/throat
- ✓ Are infected with HPV

At Piedmont, we empower you through great care that's simplified, unified and easier than ever to access the John B. Amos Cancer Center.

June Wright Conference Room
Thursday, June 22
9 a.m. to Noon

Head and Neck Cancers can affect our ability to speak, eat, drink and swallow. If found early, however, they can be successfully treated.

If you have any questions, please contact **Tenetta Holt** at **706.320.8618** or email Tenetta.Holt@piedmont.org.
