HAZARDOUS MATERIAL AFFIDAVIT
FOR PROJECTS INVOLVING DEMOLITION, WRECKING OR RENOVATION

The undersigned hereby acknowledges that the issuance of this permit does not in any way grant permission to the owner, owner’s representative or permit holder to proceed with demolition, wrecking or renovation prior to the filing of the ten (10) day **“Project Notification For Asbestos Renovation, Encapsulation or Demolition”** required by Georgia Law and administered by Georgia Environmental Protection Division (EPD). In most cases, Georgia Law requires both the owner and demolition contractor to assure the building is thoroughly inspected by an *Accredited Asbestos Inspector* for materials that contain asbestos and requires notification even if no asbestos is present in the building. Other environmental issues such as asbestos removal, lead abatement, ground contamination, etc., may have EPD regulations that could affect your project. Failure to contact the EPD prior to demolition may result in legal action against the owner and contractor.

EPD West Central District Office (Macon): (478) 751-6612
